Summary

Driven and innovative Full Stack Web Developer with a fervent commitment to delivering captivating user interfaces and seamless experiences. Proficient in a comprehensive range of web development technologies, including HTML, CSS, JavaScript, React.js, Next.js, TypeScript, Node.js, and Express.js. With a keen eye for detail and a passion for crafting polished designs, I am enthusiastic about contributing my expertise to create impactful digital solutions as a Full stack Developer or MERN Stack Developer.

Skills

Frameworks & Languages: Next.js, React.js, JavaScript/TypeScript, Java, C/C++, Node.js, Express.js, SASS/CSS

Databases & Tools: MongoDB, Prisma, SanityCMS, Docker, Git

Projects

WordWave | *Next.js, Prisma, MongoDB, OAuth, Firebase* <https://wordwavee.vercel.app/>

- Crafted a feature-rich Full Stack Blog Application utilizing Next.js, Prisma, MongoDB, OAuth, and Firebase. Leveraged OAuth and Firebase for user authentication, ensuring security, and optimized data management with Prisma and MongoDB.
- Implemented rigorous security measures and data protection protocols with OAuth, ensuring compliance with industry standards and regulations, garnering trust and positive feedback.
- Implemented SEO optimization techniques to improve the visibility and searchability of the blog, resulting in increased organic traffic and engagement.

Messenger | *MERN Stack — React.js, Node.js, MongoDB, Socket.io* <https://messenger.render.com>

- Developed Messenger, a MERN chat app with Socket.io for real-time communication. Implemented error handling and performance optimization.
- Developed an intuitive interface for enhanced user interaction and engagement, utilizing React.js. This resulted in a reliable chat application that consistently delivered a seamless user experience.
- Integrated real-time notifications and message read receipts using Socket.io, enhancing user communication and providing instant feedback on message delivery status.

Portfolio | *React.js, SanityCMS, Framer Motion, SCSS* <https://portfolio.netlify.app>

- Crafted a captivating portfolio website using React.js, Framer Motion, and SCSS for an engaging user experience. Orchestrated fluid animations and seamless transitions with Framer Motion.
- Leveraged industry best practices and responsive design principles for optimal performance and enhanced accessibility across devices.
- Implemented content management features with SanityCMS, enabling easy updating and maintenance of portfolio content without code changes.

Airbnb Clone | *Next.js, Tailwind CSS, Leaflet* <https://airbnbclone.vercel.app>

- Utilized Next.js, Tailwind CSS, and Leaflet for map integration, showcasing modern web development expertise. Highlighted skills in design and implementation by recreating a popular web application.
- Demonstrated proficiency in frontend development by creating visually appealing and functional user interfaces.
- Implemented user authentication and authorization functionalities, allowing users to sign up, log in, and book accommodations securely.

Education

Bachelor of Computer Applications, CS

Vivekananda Institute of Professional Studies • New Delhi, India • 2023 • CGPA: 8.56

Certifications

Web Development Bootcamp

Udemy - 2023
